### **What is Apprenticeship?**

*Apprenticeship is a well-organized and supervised training method we use to enable people with little or no prior knowledge of our craft or trade to become qualified journeymen. It is an "earn while you learn program" as the on-the-job portion of the training is a full-time, well-paid job.*

- 1. You will be employed under a union contract, which includes regular wage increases and diversified training.*
- 2. You will be paid good wages while you learn.*
- 3. You will gain experience using the most modern practices.*
- 4. You will work under the direction of a competent Journeyman who will teach you the trade in the shop and the job-site. You will receive close personal attention.*
- 5. You will be required to attend a combination of day and night classes for a minimum of 240 hours per year to receive technical instruction related to our trade. You will not receive compensation during your class weeks, but you may be eligible for unemployment benefits. This is one reason for our high academic entrance requirements.*

### **Career Description**

*The Inside Electrical Construction Trade requires physical effort on the part of the apprentice. Construction's scope of work requires that apprentices be able to climb ladders and scaffolds, pull and push materials and equipment, crawl, crouch, work in cramped and confined quarters, and lift 25 to 50 pounds on a fairly consistent basis. Apprentices must also possess the ability to understand written and spoken English, and closely follow specific instructions, especially safety directions. Inside Wiremen use many and varied hand and power-assisted tools to install conduit, wiring, fixtures, devices, and electrical apparatuses within commercial, industrial and residential buildings.*

### **We Are Selective**

*We are seeking men and women of all races who demonstrate the best character, aptitude, motivation, and traits conducive to success in our trade. Employers and union representatives who make up the JAC, interview all qualified candidates in an effort to select only the best candidates.*

*A good candidate is an individual who excelled in school, especially in math and in science, demonstrates reliability, possesses a sincere desire to succeed, and has a positive attitude and a desire to work hard. The electrical construction trade is an occupation requiring a high level of knowledge and skill, which we teach to hundreds of successful, qualified, and fortunate individuals.*

*Pre-employment and continued drug testing is required. Despite the passage of Proposition 64, the ETI still considers marijuana an illegal drug as it continues to be illegal under federal law. If prior to Boot Camp or at Boot Camp you fail any drug test, you refuse to consent to any drug test, you do not have sufficient hair for the hair follicle test (hair must be one inch long or longer to test) or do not provide a sufficient sample of urine for the drug test, your conditional offer of entry into the apprenticeship program will be revoked, and you must wait at least six months to re-apply to the program by submitting a new application and following all subsequent application policies and procedures.*
